SOUL TRAVEL

Honourable Human,

Namaste, Kindly open my website www.mout.co.in, read every page contents & download attachments.

Namaste. In 1995 or 1996 I noticed with BBC, Deccan Chronicle daily newspaper and Swathi Telugu weekly about Honourable Mr. X, professor (I forgot the name) took dinner in White House with Honourable President of U.S.A. for his Doctorate Master's Degree on Souls. Inspired by him and amended his methods implemented and done Soul Travel. I found these details.

- ✓ **The almighty GOD is a huge dazzling light, in a huge cave in air. If we go near one message comes "go back, do good works".**
- ✓ **Every Species has Souls.**
- ✓ **Souls have time sense.**
- ✓ **Human Souls are 3 types.**
 - **Grade 1st – having golden yellow coloured body, wearing single dazzling white cloth from right to left on body. Body sized 2 and half above present physical body, body also giving light, giving shock to another grade Souls.**
 - **Grade 2nd – having white body, wearing white clothes with giving light, size same to present physical body. Sometimes converts as snow fog and transfers their feelings, thoughts and desires as waves in to living human with Centre point of Skull.**
 - **Grade 3rd – having air layered body, having same size to present physical body. Always try to communicate themselves with their language (like speed audio dubbing) with other grade Souls.**
- ✓ **Souls travel with 2 speeds. One is 1.7 km/sec. another is unknown speed Wave, after conversion of single wave.**
- ✓ **Souls travel usually 150 metres height.**

We come out from our physical body, and surprising after saw our physical body - besides us. We stood left side head, of our physical body and we move up after 6 seconds, like helium gas small balloon slowly and reaches 150-meter height. Stands in the Air with few minutes and Starts the travel. Some Air layered Souls rounded us to communicate. Souls travel in Death: sometimes – head up, head down, sometimes rotating from right to left on sleeping position. Sometimes travel nearer to Earth. Lastly Soul stands on a small rock on a greenish mountain with small plants with yellow flowers rounded Snow Mountains. Sudden appears Huge Cave nearer to us on the Air. Enters into cave, our body light shows the way. The way first up, later distance pass, turns left, some distance later small white river flows from right to left, after dipped out, some distance later we saw dazzling light with long distance. If we move nearer, stand in front of huge dazzling milky light, some time passes after, one female voice message comes from our left side, "go back, do good works". We turn right, come back with run, behind that cave swallow self with speedily, jumps out from cave, we reach rock with 2 jumps. After crossing rock, we are converts into single wave, and come back into our body. This is my practical experience in to Death. I travelled 240 degrees on my home place of KHAMMAM. I took 6 hours to come back and me spender nearly 2 hours in that cave. Here are graph details:

24600 km

= 1.7 km/sec

1. I calculated height of 150 meter, based on in front of my home factory chimney.
2. I calculated A, B and C, based on observation atmosphere and Sun position in the Soul travel.

I would like to know:

- ✓ 3 type Souls are fixed or not, they were interchanging or not? Then how?
- ✓ 2nd speed of Soul wave and how it converts.
- ✓ People before doing Soul travel must prepare themselves for comeback. Otherwise "No Life".

Souls travel procedure of Mr. X, professor method.

- ✓ Kept the place premises silent, clean and dark.
- ✓ Do the head bath. After bath dry hairs, ware fresh apparels. If possible kept the place with good fragrance.
- ✓ Sleep on the bed or on any material (to reduce earth gravity) (use pillow for comfort) in the place, face should keep up (Our face looks the roof or sky). Close the eyes.
- ✓ Hands up slowly and keep the palms rear side to see the head with vertically (90 degrees).
- ✓ Breathe slowly and kept mind blank without any thoughts. Give autosuggestions to you with "my body becoming light, I am leaving this body." After sometime later your hands automatically fell down slowly. Sometime later appears dark, later sometime passes appear One Pink colour "Chakra" like shown (I don't know perfectly number of leaves, may be 6 to 16 leaves) appears with few seconds. After sometime later our Soul comes out from our physical body and stands nearer our physical body head side with 6 seconds and flies slowly like a Helium gas balloon. After reaching 150 metre height stands for few minutes, then some Grade 3rd Souls come and around you and tries to catch you and try to communicate with you. Later you can travel 240 degrees on the earth.

This is the Soul travel or Death.

Thank you Sir & Madam.

Jai Hind.

Yours obediently simple & ordinary human
